I.D.O. Events created a botanical fantasy

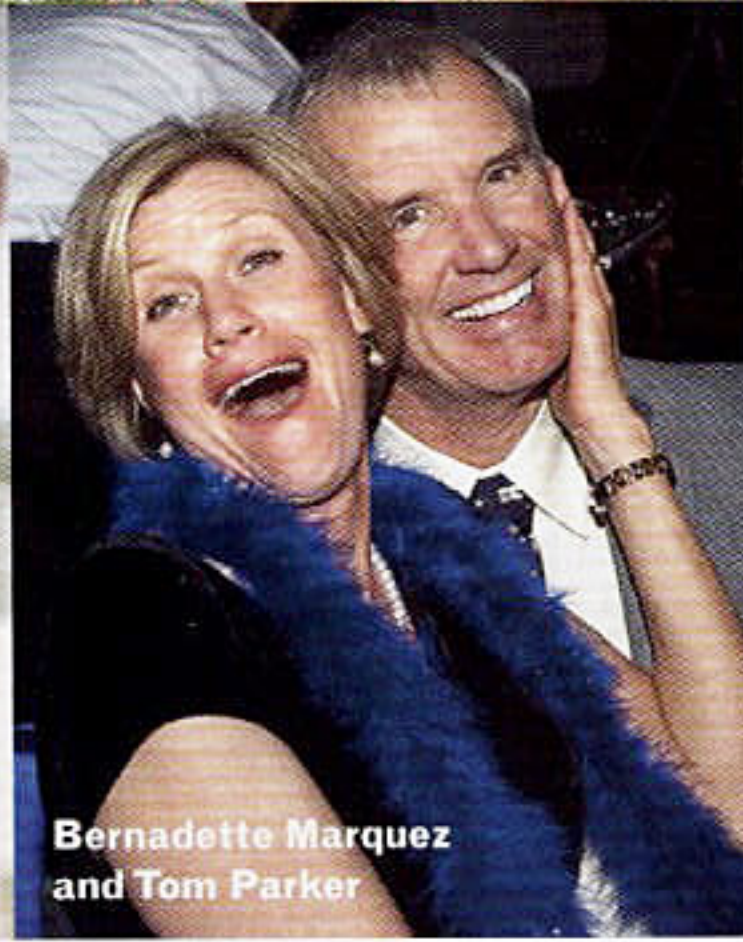

Host John Cleese

FLIGHTS OF FANCY The birds and the bees were buzzing at The Santa Barbara Museum of Natural History's sixth annual Mission Creek Gala. I.D.O. Events transformed the Fleischmann Auditorium with vibrant spring colors, birds and insects of fancy. Guests nested in alcoves that were cleverly designed to resemble a beehive, birdcage, and even the monarch groves in Goleta. Close to \$100,000 was raised to fund the Museum's School Programs, which serve more than 50,000 school children every year.
